ISSN 1201-561X

THEORY AND APPLICATIONS OF CATEGORIES

Volume 6, 1999

The Lambek Festschrift: Theory and Applications of Categories
A special volume dedicated to
Joachim Lambek
on the occasion of his 75'th birthday.

Introduction 1

An appreciation of Jim Lambek at McGill
Michael Barr 2

$\star$-Autonomous categories: once more around the track
Michael Barr 5

A bicategorical approach to static modules
Renato Betti 25

The categorical theory of self-similarity
Peter Hines 33

A note on rewriting theory for uniqueness of iteration
M. Okada and P. J. Scott 47

Contravariant functors on finite sets and Stirling numbers
Robert Paré 65

The Editors of *TAC* wish to thank Michael Barr, Philip Scott and Robert Seely who acted as guest editors for this special volume.

© The Editors of Theory and Applications of Categories 1999. Permission to copy for private use granted.

Comparing coequalizer and exact completions
M. C. Pedicchio and J. Rosický 77

Enriched Lawvere theories
John Power 83

Some epimorphic regular contexts
R. Raphael 94

Natural deduction and coherence for non-symmetric
linearly distributive categories
Robert R. Schneck 105

THEORY AND APPLICATIONS OF CATEGORIES (ISSN 1201-561X) will disseminate articles that significantly advance the study of categorical algebra or methods, or that make significant new contributions to mathematical science using categorical methods. The scope of the journal includes: all areas of pure category theory, including higher dimensional categories; applications of category theory to algebra, geometry and topology and other areas of mathematics; applications of category theory to computer science, physics and other mathematical sciences; contributions to scientific knowledge that make use of categorical methods.

Articles appearing in the journal have been carefully and critically refereed under the responsibility of members of the Editorial Board. Only papers judged to be both significant and excellent are accepted for publication.

The method of distribution of the journal is via the Internet tools `WWW/ftp`. The journal is archived electronically and in printed paper format.

Subscription information. Individual subscribers receive (by e-mail) abstracts of articles as they are published. Full text of published articles is available in .dvi and Postscript format. Details will be e-mailed to new subscribers and are available by `WWW/ftp`. To subscribe, send e-mail to `tac@mta.ca` including a full name and postal address. For institutional subscription, send enquiries to the Managing Editor, Robert Rosebrugh, `rrosebrugh@mta.ca`.

Information for authors. The typesetting language of the journal is TEX, and LATEX is the preferred flavour. TEX source of articles for publication should be submitted by e-mail directly to an appropriate Editor. They are listed below. Please obtain detailed information on submission format and style files from the journal's WWW server at `URL http://www.tac.mta.ca/tac/` or by anonymous ftp from `ftp.tac.mta.ca` in the directory `pub/tac/info`. You may also write to `tac@mta.ca` to receive details by e-mail.
